

Lightforth — Sales Copilot Knowledge Base

This folder is the content source for Lightforth's own **Sales Copilot Knowledge Base** — the material an internal Lightforth sales rep leans on while closing customers on the **real Lightforth Copilot product**, live on a call.

This is not a knowledge base about some other SaaS tool. It is Lightforth selling Lightforth.

Who the rep is talking to

- 1. **Individual job seekers** buying Pro or Premium for their own job search.
- 2. **Coaches & organizations** (career coaches, bootcamps, university career centers, outplacement firms) buying a bundle of seats for the job seekers they support.
