

Lightforth — Pricing & Packaging Guide

Pricing Philosophy

Lightforth prices per person, not per seat-license bureaucracy. It's designed to be:

- **Simple** — two plans, one clear upgrade path
- **Low-commitment** — monthly by default, cancel anytime
- **Justifiable in one sentence** — cheaper than one hour of a career coach's time, and available every day

Plan Comparison

Feature	Pro	Premium
Monthly Price	\$49/mo	\$79/mo
Annual Price	\$39/mo (billed yearly)	\$63/mo (billed yearly)
Credits/month	50	100
Interview Copilot	✓	✓
Coding Copilot	✓	✓
Meeting Copilot	✗	✓
Resume Builder	✓	✓
Auto-Apply	✓	✓
Interview Prep (mock interviews)	✓	✓
Support	Email	Email, priority queue

Resume Builder, Auto-Apply, and Interview Prep exist on every Lightforth account with a free tier (limited credits); Pro and Premium raise those limits and unlock the live desktop Copilot.

What "credits" mean

A credit is roughly one AI action — one tailored resume rewrite, one Auto-Apply submission, one mock interview question, or one minute of live Copilot coaching. Most active job seekers use 30-60 credits/month; Premium's 100 gives real headroom for a heavy application season.

Discount Guidelines

Standard Discounts

Commitment	Discount	Approval Required
Monthly	0%	—

Annual	20% (baked into the \$39/\$63 annual price)	None — always available
--------	---	-------------------------

Special Situations

Scenario	Discount	Approval Required
Student (valid .edu email)	15% off any plan	None — self-serve
Referral (existing customer code)	1 month free for both	None — self-serve
Career coach / bootcamp bundle, 5-9 seats	15% off per seat	Sales Lead
Career coach / bootcamp bundle, 10-19 seats	20% off per seat	Sales Lead
Career coach / bootcamp bundle, 20+ seats	25% off per seat	Founder/CVO
Non-profit workforce program	Up to 30% off bundle	Founder/CVO

Stacking Rules

- Student and referral discounts don't stack with each other — apply whichever is larger
- Bundle discounts are per-contract, not combinable with individual student/referral discounts
- Nothing stacks past 30% off list

Value Math (use in a demo, not a spreadsheet)

The honest version: this isn't an ROI-calculator sale. The framing that actually lands is cost-per-outcome:

"Premium is \$79 a month. If it gets you one offer even two weeks sooner than you'd have gotten it on your own, that's easily worth more than two months of the subscription — and you're not locked into anything longer than a month."

For a coach/bootcamp buyer, the framing is capacity, not ROI:

"You can't personally run a live mock interview with all 40 of your students the week before their real interviews. Copilot can, for all of them, at the same time."

Common Pricing Questions

"Why is Premium \$30 more than Pro?"

Meeting Copilot (for informational interviews, panel interviews, and post-offer negotiation calls) plus double the credits — most people who upgrade do it during a heavy interview stretch, then can downgrade back to Pro after.

"Can I switch plans?"

Yes, anytime. Upgrades take effect immediately; downgrades take effect at the next billing cycle.

"Is there a free trial?"

Yes — 14 days, full feature access, no credit card required.

"What happens to my resumes/data if I cancel?"

Everything is retained for 30 days after cancellation so you can export it, then deleted unless you reactivate.

"Do you offer payment plans for the coach/bootcamp bundles?"

Bundles under 20 seats are billed upfront annually. 20+ seat bundles can be split into two payments (50% upfront, 50% at 60 days) — Founder/CVO approval required.
