

Lightforth — Discount Guidelines

Overview

Consistent, fair discounting across every conversation. Lead with value first — discounts are a tool, not the opening move.

Self-Serve Discounts (No Approval Needed)

Scenario	Discount	How
Annual billing	20% (Pro \$39/mo, Premium \$63/mo)	Automatic at checkout
Student (valid .edu email)	15% off any plan	Automatic with .edu verification
Referral (existing customer's code)	1 month free for both parties	Applied via referral code at signup

Bundle Discounts (Coach / Organization Buyers)

Seats	Discount	Approval
5-9	15% off per seat	Sales Lead
10-19	20% off per seat	Sales Lead
20+	25% off per seat	Founder/CVO
Verified non-profit workforce program	Up to 30% off	Founder/CVO

Documentation required for any bundle discount: organization name, seat count, contract term (always annual), and — for non-profit rate — 501(c)(3) or equivalent verification.

Discount Request Process (Bundles Only)

Step 1: Determine Tier

Based on seat count per the table above.

Step 2: Prepare Request

- Organization name and contact
- Seat count and requested discount
- One-line justification (e.g., "12-seat bootcamp cohort, annual")

Step 3: Submit

- **5-19 seats:** Slack/email to Sales Lead, approved within 24 hours
- **20+ seats or non-profit rate:** Request form to Founder/CVO, approved within 48 hours

Step 4: Follow Up

Confirm approval before quoting a final number to the buyer.

Stacking Rules

- Student and referral discounts don't stack with each other — apply whichever is larger
 - Individual-plan discounts (student/referral/annual) don't stack with bundle pricing — a bundle buyer gets the bundle rate, not bundle + student
 - **Maximum discount on any bundle: 30%**, no exceptions without Founder/CVO sign-off
-

Common Mistakes to Avoid

1. **Discounting before explaining value** — always lead with cost-per-outcome, not price
 2. **Approving a bundle discount without documentation** — always capture seat count + org name
 3. **Forgetting non-profit verification** — the 30% rate requires it, no exceptions
 4. **Quoting a discount before it's actually approved** — confirm first, quote second
