

Lightforth — Talk Tracks

Opening Talk Tracks

Inbound Trial Signup Follow-Up

"Hi [Name], welcome to Lightforth! Quick question before you dive in — where are you in your search right now, just starting or already interviewing?"

Inbound Demo Request

"Hi [Name], thanks for booking time. Before I show you around — what's the biggest bottleneck right now: not enough interviews, or not converting the ones you get?"

Coach/Organization Cold Outreach

"Hi [Name], I work with career coaches and bootcamps whose graduates use Lightforth for resume tailoring and live interview coaching between sessions. Would 15 minutes be useful to see if it fits your cohort?"

Discovery Talk Tracks

Individual

"Have you customized your resume for each application, or sending one version everywhere?" / "How many interviews have you had in the last month, and how did they go?" / "What's actually holding you back right now?"

Coach/Organization

"How many people are you supporting right now?" / "What do people need help with between your coaching sessions?" / "Do you already recommend any tools today?"

Demo Talk Tracks

Opening the Demo

"Send me a real job posting you're targeting — I want to show you this on something that actually matters to you, not a generic example."

The Interview Copilot Moment

"Watch this — I'm going to play a real interview question, and you'll see the suggested answer appear on screen in real time. This is what it looks like live, during the actual interview, invisible to the interviewer."

Wrapping Up

"Based on what you've seen, where do you think this would help you most — the resume, the applying, or the interview itself?"

Closing Talk Tracks

Trial Close

"The 14-day trial is free, no card needed. Want to start it now and tailor your resume for that job you sent me?"

Direct Close

"Would Pro or Premium make more sense for you — are you also doing coding or panel-style interviews where Meeting Copilot would help?"

Bundle Close

"Would it make sense to start with a smaller pilot bundle — 5 or 10 seats — with one cohort, before rolling it out wider?"

Objection Response Talk Tracks

Price

"I hear you. But what's one job worth to you? If this gets you hired two weeks sooner, it's already paid for itself — and it's month-to-month, no lock-in."

"Isn't this cheating?"

"Fair question — it's not feeding you a script. It surfaces the relevant point from your own experience, faster than nerves let you recall it yourself. You still have to be the person who did the work."

"I already tried [competitor]"

"What was missing?" — then listen. Most of the time it's that the other tool never followed them into the actual live interview.

Timing

"Totally fair. The trial's free and doesn't need a card — want to just try it on your next real application instead of deciding in the abstract?"

Follow-Up Talk Tracks

Post-Demo

"Thanks for your time today. What questions came up after we hung up? I'll send the trial link either way."

Stalled Trial

"Hey [Name], noticed you haven't tailored a resume yet in your trial — want to hop on for 10 minutes and do it together on a real posting?"

Referral Talk Tracks

"Who else in your search or your network is going through the same thing? Referral gives you both a free month if they sign up."
